Top 15 countries with Happiness Score

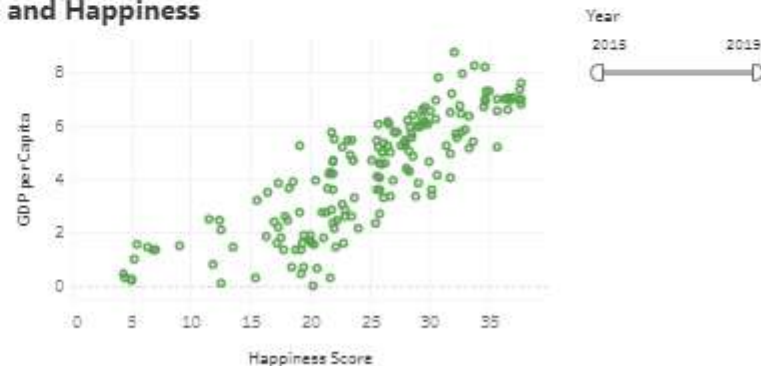

Countries with healthy life

Growth of social support by years

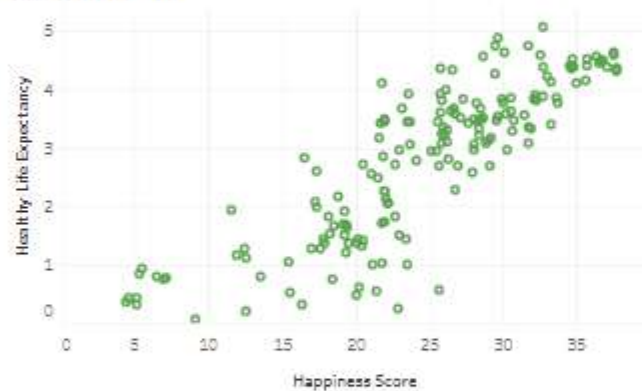

Relationship Between GDP per Capita and Happiness

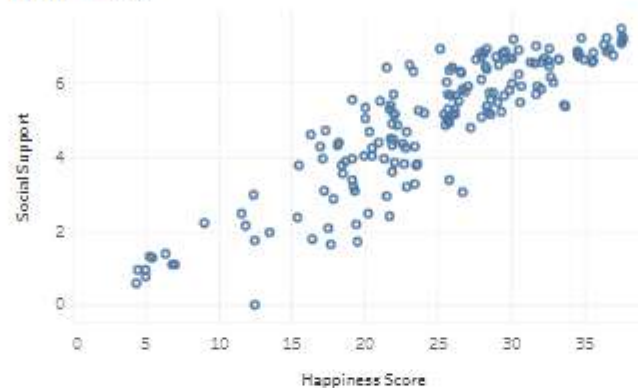

Higher GDP per Capita is generally associated with higher Happiness Scores, but other social factors also contribute to well-being

Social & Economic Drivers of Happiness

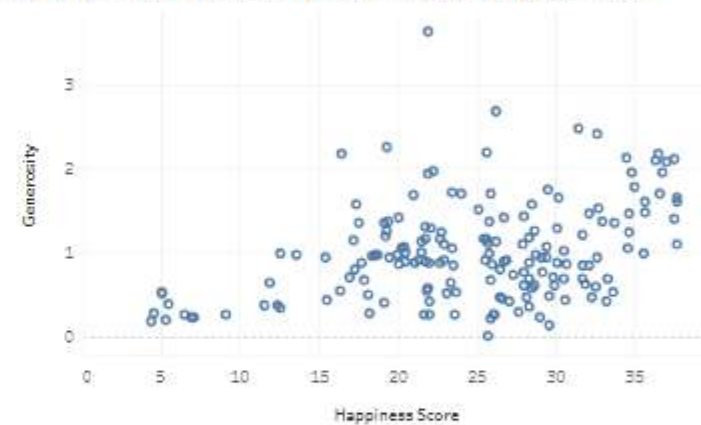

Relationship between Healthy life and Happiness from 2015-19

Relationship between Social Support and Happiness

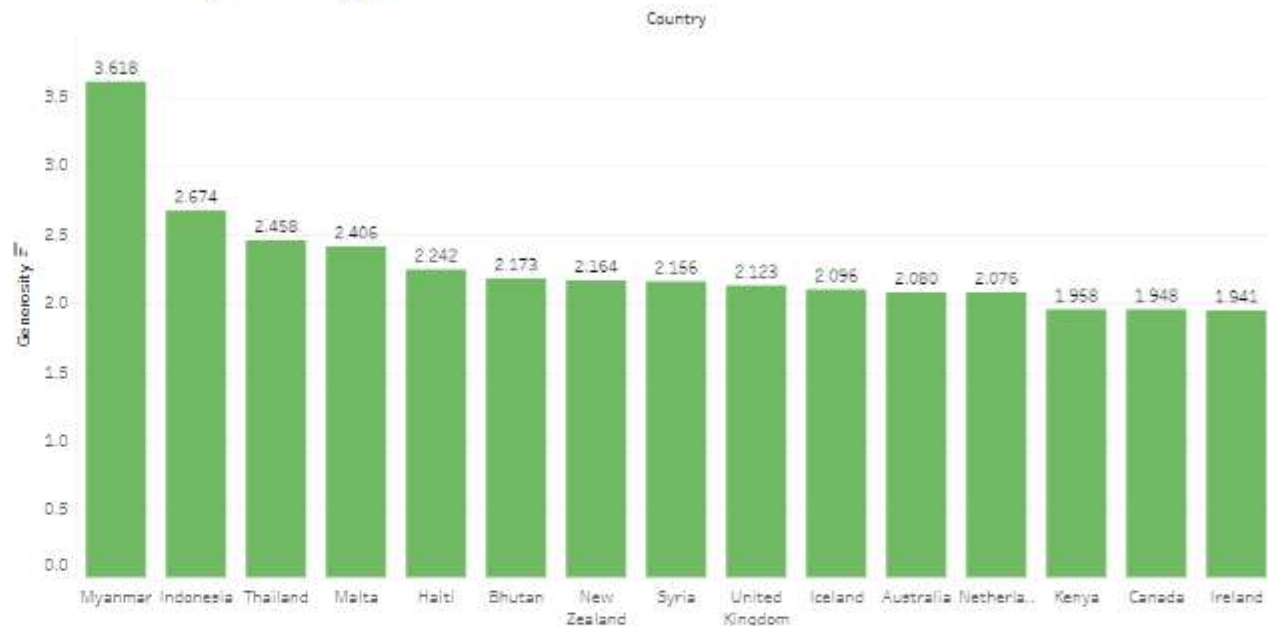

Relationship between generosity and Happiness

Strong social networks, good healthcare, and economic prosperity are the strongest drivers of happiness worldwide.

Governance & Human Values

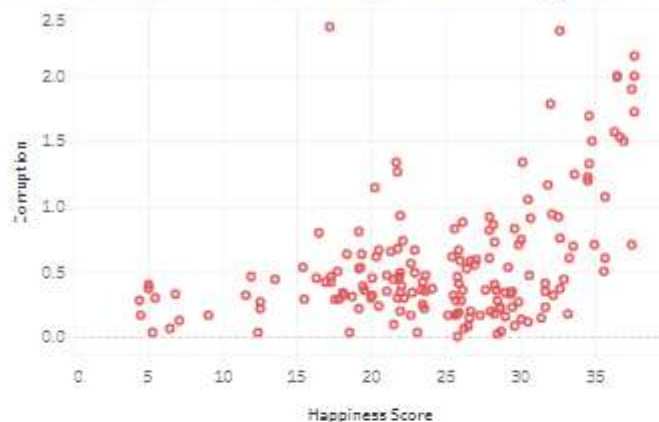

Does Generosity Drive Happiness?

Myanmar shows the highest generosity, while other countries display moderate and similar generosity levels.

Countries with lower corruption and higher freedom consistently report higher happiness, while generosity plays a smaller but meaningful role in community well-being.

Relationship Between Corruption and Happiness

Relationship between Freedom and Happiness
